

PLEASE READ INSTRUCTIONS BEFORE USE

Using the Chanter Mate for ultimate control during bagpipe assembly.

STEP 1
Slide the Chanter Mate over the stock. Its flexible design will fit a variety of stock shapes and sizes.

STEP 2
Place the pipe chanter into the Chanter Mate.

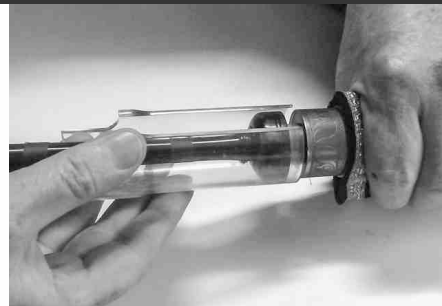

STEP 3
Slide the pipe chanter in a controlled motion, guiding the chanter reed into the stock.

STEP 4
Continue until the hemp enters, then stock and feels firm and secure.

STEP 5
Remove the Chanter Mate by sliding it back off the stock.

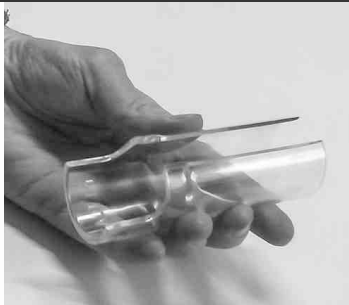

STEP 6
Push firmly and secure the pipe chanter in the stock.

STEP 7 Reverse order to remove pipe chanter. | **IMPORTANT:** First, loosen the pipe chanter by hand without removing it from the stock.

Using the Chanter Mate with a reed protector.

STEP 1
Slide the protector cap into the front of the Chanter Mate. Its flexible design will accommodate a variety of protector cap shapes and sizes. (May not work with all models).

STEP 2
Place the pipe chanter into the Chanter Mate. Then slide in a controlled motion, guiding the chanter reed into the chanter protector.

STEP 3
Tighten and secure the screw to the pipe chanter. Then remove it from the Chanter Mate.

STEP 4
Reverse order to remove pipe chanter.

IMPORTANT: The Chanter Mate may not work with all reed protectors. Please ensure careful use for best results.

NOTE: The Chanter Mate is designed to reduce the risk of damaging your reed. Use with care and at own risk.
